Approve w/Comment

Table/Reject

## Rationale:

- Submit/approve the NIEM 5.2 Model as an OASIS Open Project Release - "Release," with respect to an OASIS Open Project, is a collection of links to resources within the project that enable the Project Governing Board to deliver software to users: <https://www.oasis-open.org/policies-guidelines/open-projects-process/#releases-and-group-releases>
- 5.2 was contributed so no CLA issues to contend with
- Not suggesting all documents and tools be considered just the model
- LOE is small to submit as an OASIS Open Project Release
- Decision to proceed to PSD/PS/OS can be evaluated separately later

# MOTION TO APPROVE THE NIEM 5.2 MODEL AS AN OASIS OPEN PROJECT RELEASE (CONT.)

## Rationale (Cont.) :

NIEM models developed prior to OASIS have been contributed to the Open Project at <https://github.com/niemopen/niem-model>. Each version is designated with a specific tag in the main branch.

Whereas:

- 1.The latest version, NIEM 5.2, will be used in the development of the first OASIS version, NIEM 6.0, and
- 2.The PGB has the sole authority to approve a Designated Branch as a Release per [Open Project Rules](#),

The NTAC recommends that the PGB formally approve NIEM 5.2 as a Release. Here are the relevant links:

Commit: <https://github.com/niemopen/niem-model/commit/64fef673bdb1511a7a7744fa74308e4d98290822>

5.2 tag: <https://github.com/niemopen/niem-model/tree/5.2>

Zip file download: <https://github.com/niemopen/niem-model/archive/refs/tags/5.2.zip>

**NTAC TSC Chair – Jim Cabral**

# MOTION TO APPROVE NBAC TSC GOVERNANCE DOCUMENT AMENDMENTS

- **Chair:** A Draft of the proposed Amended NIEMOpen Business Architecture Committee (NBAC) Technical Steering Committee (TSC) Governance Document was provided to the PGB Voting Members as a readahead
- **Maker:** (NMO TSC - Thomas Krul) Motion that amended NBAC TSC Governance Document be approved.

## SECOND?

- **Chair:** (Debate) Do any of the members have comments on the proposed Amended document?
- **Chair:** Are there any objections to approving the proposed Charter Amendment (*or as corrected*).
- **Chair:** Without objection, approved.

## **Summary of changes:**

- Replaces sponsor with patron to avoid confusion with an OASIS project funding sponsor
- Expands discussion of Domain Space Sub-Committees
- Adds section on contributing or modifying content to the NIEM model
- Updates NBAC TSC Chair/Co-Chair responsibilities and adds document links
- Adds section on NBAC TSC meetings
- Updates amendment process

- Briefed American Meteorological Society (AMS) on NIEMOpen and discussed possible new Sub-Committee for weather/climate with AMS as executive
- Worked with a coalition to encourage the Republic of Columbia to adopt NIEM for criminal intelligence and translate into Spanish

**NIEMOPEN**

# **Proposed Resource Funding**

For consideration of the NIEMOpen Project Governing Board (PGB)

July 27<sup>th</sup>, 2023

# BACKGROUND

NIEMOpen Premier Sponsors designated their \$20K of premium dues\*\* to the general fund. The general fund can be used to procure supplemental services or activities, subject to PGB approval. Funds available as of Q2FY2023 are 58K. The NIEMOpen Management Office (NMO) Technical Steering Committee (TSC) has identified for the PGB specific value-add resources that will help advance the functionality of the NIEM framework and contribute to maintaining and updating model architecture, NIEM version update, and training updates.

As of June 2023, NIEMOpen has three (3) Premier Sponsor.

## **Joint Staff J6**

The Joint Chiefs of Staff  
(JCS) J6 Directorate  
within the U.S. DoD.

## **DHS S&T**

The Science and  
Technology Directorate  
within the U.S. DHS.

## **FBI CJIS**

Criminal Justice  
Information Services  
(CJIS) within the U.S.  
FBI.

\*\*Allocation may only be used during the current annual term of Premier Sponsorship. Unused funds do not roll over and are non-refundable.

# OVERVIEW

The NMO TSC recommends that the value-added funding allocation be dedicated to:

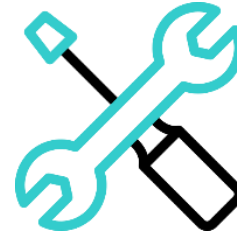

1. software licensing and cloud hosting procurement
2. supplemental services that help maintain technical support and training resources

## Software / Hosting Resources

These resources will include annual software licensing costs, as well as a built-in contingency for any service with a variable cost model.

It should be noted that some of these resources will likely require supplemental subject matter expert (SME) support for initial setup and deployment.

## Supplemental Services

These resources would involve funding reserved for third-party vendors / service providers (including developers, content production, marketing, etc).

As an open-source project, it is important that we invest in keeping training, marketing, and tools up-to-date in order to advance NIEMOpen awareness, adoption, and implementation.

# **FY23-FY24 PGB Proposal Overview**

# **FY23-FY24 PROPOSED RESOURCES**

- **NIEMOpen Potential Supplemental Services (GTRI Contract Update)**
  - Technical support services for maintaining/managing the NIEM model architecture
  - Technical support services for updating NIEM versions (i.e., previously referred to as releases)
  - Support services to update training materials for 6.0 and subsequent model versions

**Priority established by PGB at 11 April 2023 PGB**

# FY23-FY24 PROPOSED RESOURCES (Cont.)

- **Meeting conducted 24 July 2023 between OASIS, NIEMOpen PGB Chair, and GTRI**
  - Exploring contract vehicle between GTRI and OASIS to facilitate supplemental services for NIEMOpen
  - T&M like support contract where tasks can be added/adjusted easily as funding available
  - Multiple labor categories
  - Multi-year
- **Scope**
  - Tasks being developed consistent with PGB 11 April Meeting priorities: Model Architecture, NIEM Version development, and NIEM Training support
- **Status**
  - Preliminary text/tasks exchanged between GTRI & OASIS
  - Contract language & SOW under development

# FY23-FY24 PROPOSED RESOURCES

- NIEMOpen Potential Software and Hosting Procurements
- Updates:
  - **MEP Builder Hosting** –hosting services for the Message Exchange Package (MEP) Builder Tool; would require an Amazon Web EC2 Service (AWS) instance w/ Docker, external third-party API sever calls **(Cost Estimate Under Review)**
  - **IEPD/MEP Registry and Repository** - hosting services for a registry/repository on NIEMOpen.org **(Cost Estimate Under Review)**
  - **GitHub Integration for Confluence** - software as a service to support automatic push/pull integration with GitHub repositories; content from repositories would populate the 'NIEM Support Knowledgebase' to improve search/accessibility to NIEMOpen content and provide analytics **(Cost Estimate Under Review)**
  - **Atlassian Suite; Jira Service Desk** – centralized Help Desk and Knowledgebase for NIEMOpen outreach and support requests; Service Level Agreements (SLA's) and Key Performance Indicators (KPI's) for communication and customer satisfaction; route tickets to specific POC's **(Cost Estimate Under Review)**

# FY23-FY24PROPOSED RESOURCES

- **NIEMOpen Potential Software and Hosting Procurements**
- **Motions to Procure :**
  - **Learning Management Software for Training & Credentialing - LearnPress Learning Management System** – incorporate online training directly into NIEMOpen.org; establish modularized dynamic content; incorporate engagement to test user understanding of key concepts; provide certificate of completion; explore paid training model
  - **EIN Presswire** - online newswire and news distribution service; promote NIEM to industry leaders and a larger target audience

# TRAINING STATISTICS (550+ ATTENDEES SINCE SEP 21)

## Next Steps:

- Hybrid Offering to Reduce Training Delivery Costs (6-8 Hrs. Hybrid Instructor & Support LOE vs. 24 Hrs. Instructor Led Format)
- Update Curriculum to reflect NIEM Version 6.0 Changes
- Expand Instructor Pool – Promote NIEMOpen In- kind Instructor Contribution from NIEMOpen Sponsors/Members
- Explore Awarding Course Completion Certificates, Credentialing, Accreditation, PDUs
- Embed NIEMOpen Training with Commercial/Vendor Provider Offerings
- Implement LMS - Potential Revenue Builder for NIEMOpen

### Press Release Distribution Service

## Reach Millions of People With One Click

EIN Presswire's distribution footprint reaches millions. And unlike our competitors we combine a press release distribution service with media monitoring and RSS feeds that are used world-wide by journalists, professionals and businesses - everyday - and this means greater effectiveness for you. Just pay as you go or opt-in to plans such as the [Pro+ bundle](#) (10 releases for \$399) and get access for one year to EIN Newsdesk for free.

**Timely. Informative. Effective.**

The screenshot shows the EIN Presswire website. At the top, there's a navigation bar with the EIN Presswire logo, contact information (Questions? +1 (202) 335-3939), and links for Contact and Log In. Below the navigation bar, there are buttons for 'Set Up FREE Account' and 'Submit Release'. The main content area features a 'Press Release Distribution Service' section with the headline 'Reach Millions of People With One Click'. It includes a video player with a play button and a description of the service. Below the video, there's a 'Timely. Informative. Effective.' section with another 'Set Up FREE Account' button. The footer mentions 'There were 283 press releases posted in the last 24 hours and 168,171 in the last 365 days.' and links to 'World Media Directory', 'RSS', and 'Email Newsletters'.

# Time Frame Version 6.0

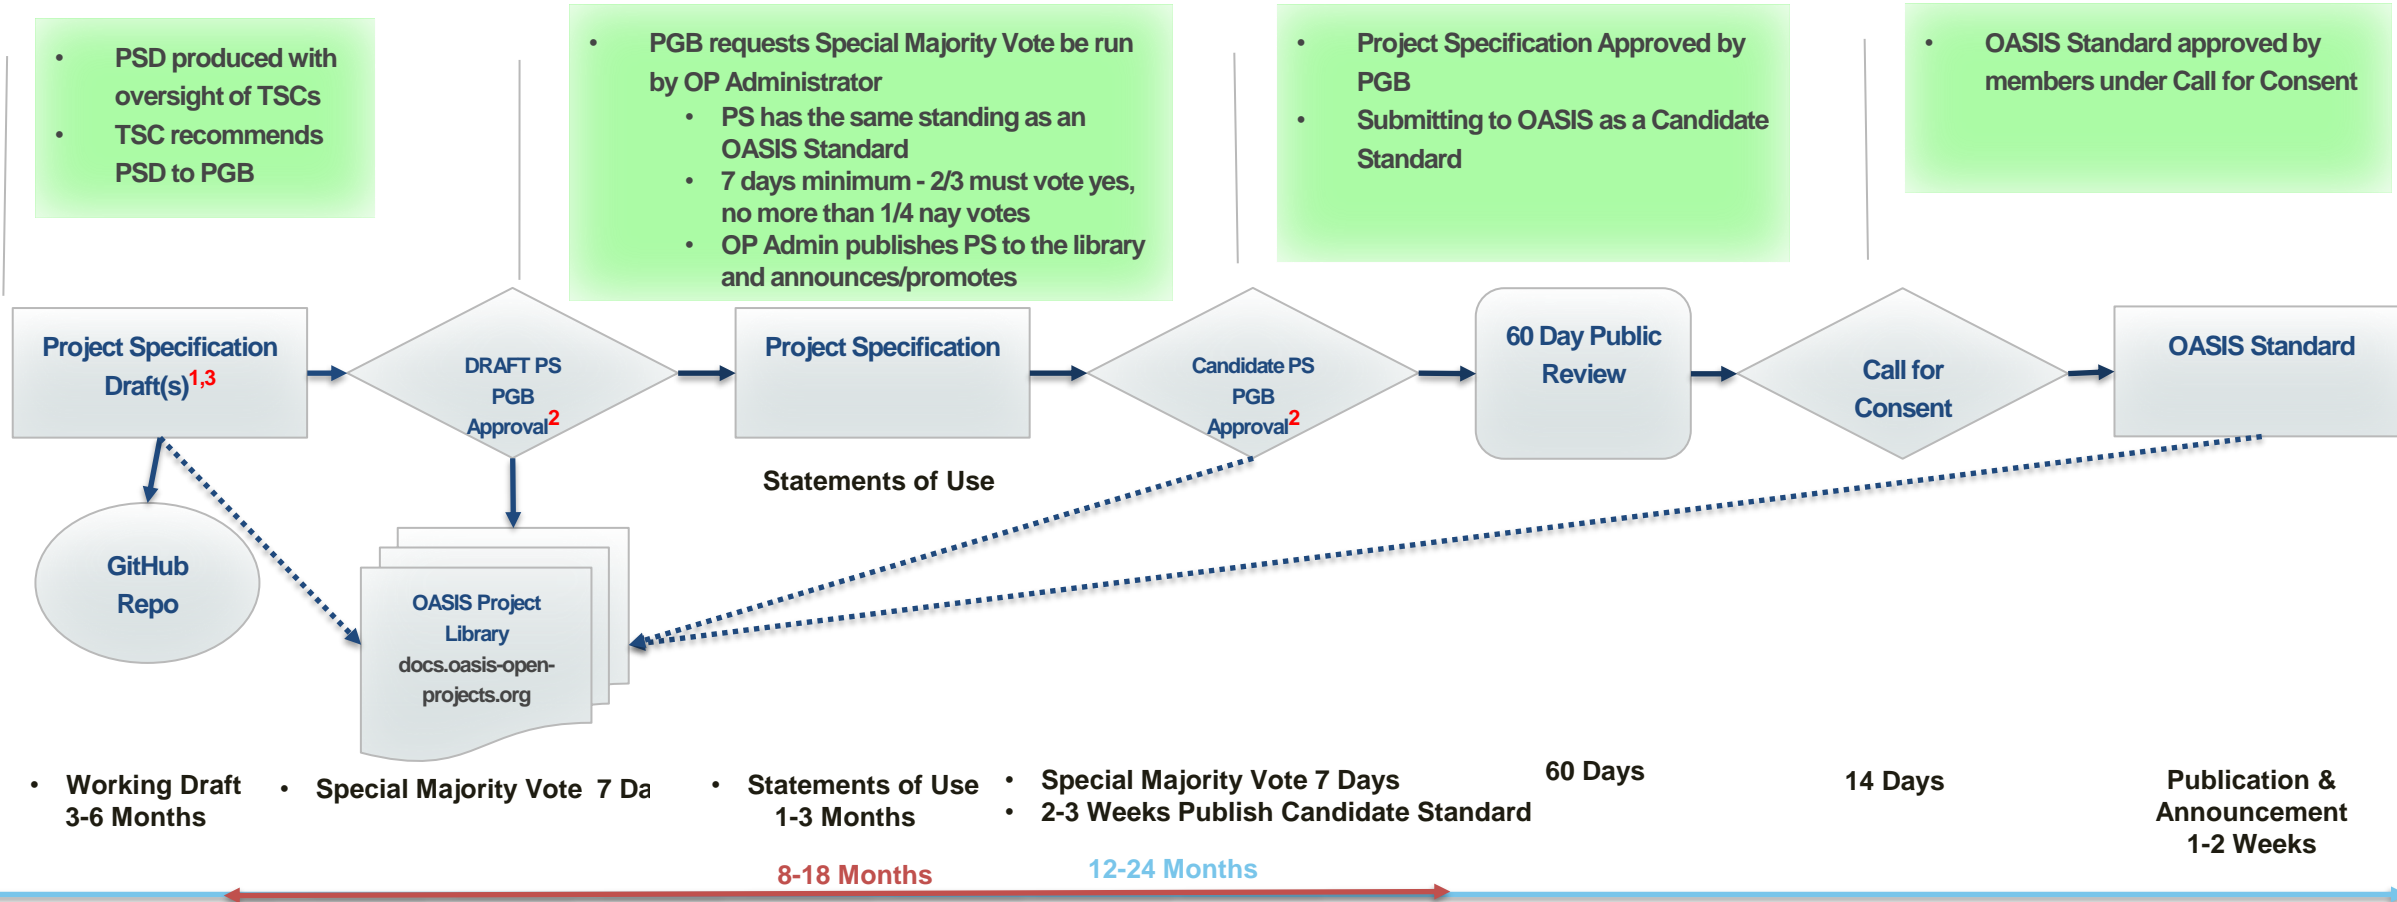

The main driver of the timeline is how much time you want to spend working on the content. To drive to OS by end of year, you'd generally follow a schedule

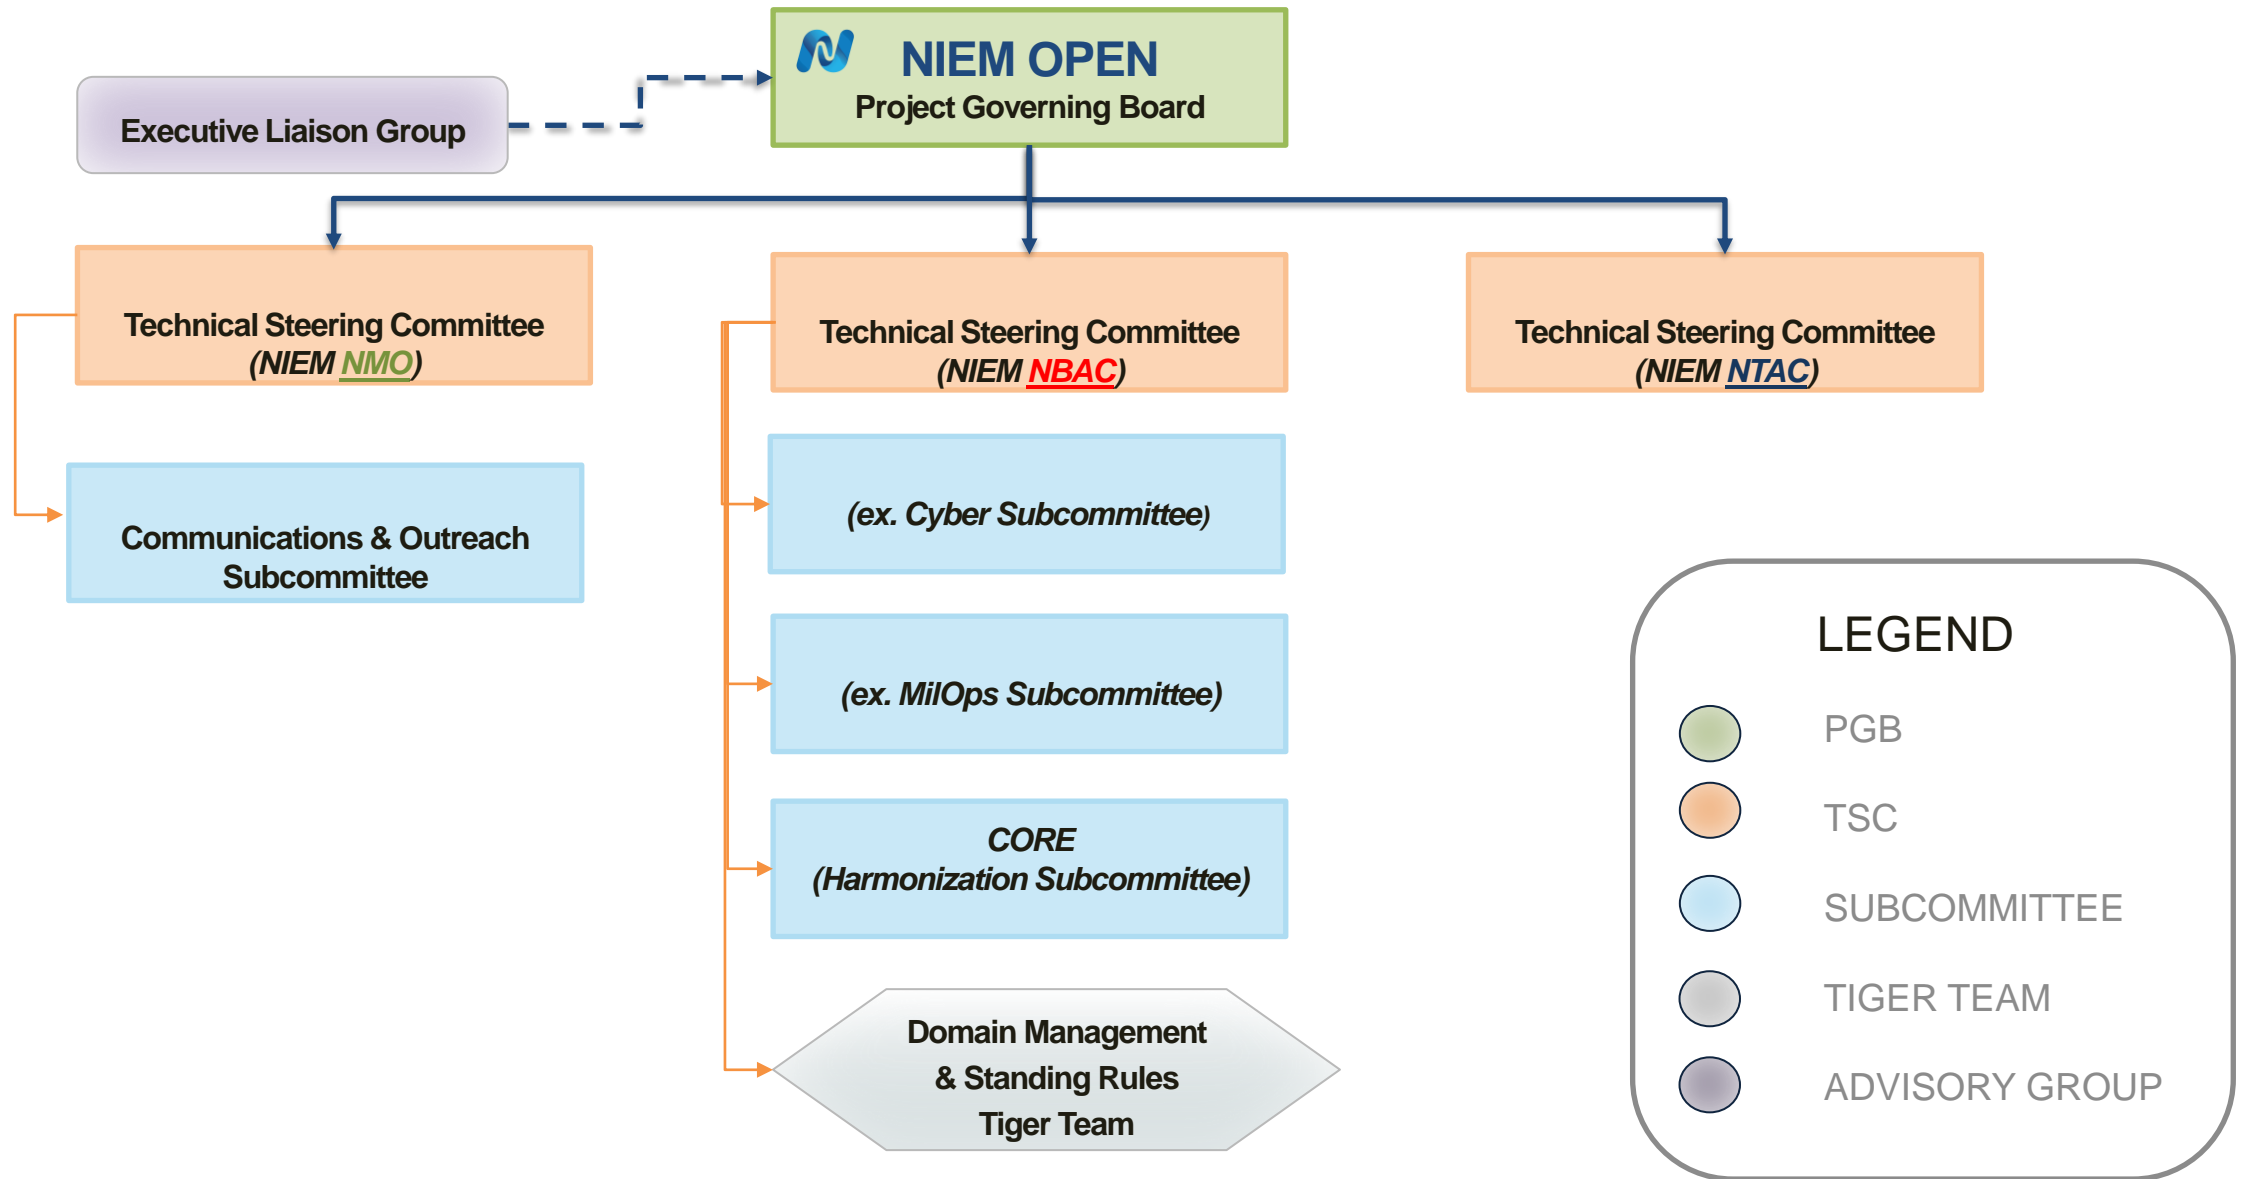

# SPECIFICATION WORKFLOW AND TIMELINE

- Request a spec template from OP Admin
- Decide on editor(s)
  - Editor's job is to capture the intentions of the project team/TSC
  - Editor's Manual starting at <https://docs.google.com/document/d/1ITartcAzlqidzrCxuXFFiwdRDKRipqMnNsMS24SZdjg/edit>
- Create Project Specification Draft (PSD)

- PGB can decide to advance PS to OASIS for consideration as an OASIS Standard
  - Requires 3 Statements of Use and a Special Majority Vote run by OP Admin
  - 60-day public comment period
  - The Project Specification (PS) is put to OASIS Members in a 14-day Call for Consent. If no objections, work becomes an OASIS Standard, eligible for submission to other SDOs
